Olympia, February 14, 1964

Hon. Henry M. Jackson
Senate Office Building
Washington, D. C.

Dear Senator Jackson:

I am certain that President Johnson, in creating the Commission to investigate the assassination of our late President, intended that the Commission's staff be composed of persons of the highest repute.

If it is a fact, as the attached article states, that an assistant counsel of the Commission is affiliated with the Emergency Civil Liberties Committee it should be a matter for Congressional concern.

In order for the public to have complete confidence in the Commission it would appear essential to dispel all doubts about this individual's qualifications.

Sincerely,

Don E. Butler
